- Assessment of emergencies and dental pain with any temporary treatment required, carried out at the practice during normal surgery hours
- 20% reduction off Children's Fee Guide prices, including fillings, Fissure sealants, root treatments (on baby teeth), extractions and sports mouthguards. Other treatments on adult teeth will be charged at current adult fees.
- Worldwide Dental Trauma Insurance to protect against the cost of large unforeseen accidental damage
- Emergency Callout Insurance, should you need a dentist in an emergency, anywhere in the world
- Parental redundancy protection for your monthly plan payments for up to 12 months

Additional benefits

As with our adult members, our child members are also entitled to regular complimentary care appointments. After six consecutive monthly payments, your child can benefit from:

- A dental appointment to provide clinical examination and treatment plan, fluoride application to molar teeth, scale and polish/oral hygiene session where clinically necessary (maximum one per year), preventative advice and x-rays where clinically necessary.
- All treatment planning for your child's future dental needs.

There is no limit to the number of free appointments your child can receive. You only need to make six consecutive monthly payments and, each time you do this, your child will be entitled to the additional benefits set out above.
